Subject: Any chance to meet?

Hey Richard...

I know the odds are low, but turns out I will be in DC on Thursday for the workshop at the NAS about the IRIS program and wondered if you might have any time for me to stop by and say hello... Bob O'Keefe and I had a very good meeting last week with Bill Wehrum and Clint Woods at OAR (our other partners of course for HEI's core air pollution and health work), and thought it would be good to catch up on that and other matters...

Any chance of stopping by on Thursday afternoon?

Thanks in advance!

And best...

Dan
